## **Quanterix Corporation Expands at 113 Hartwell Avenue in Lexington, Massachusetts**

**September 24, 2014, Boston, MA** –Quanterix Corporation (Quanterix), a leader in the development of ground breaking tools in high definition diagnostics, has executed an agreement with its landlord, King Street Properties, to expand into 30,655 RSF within its existing building at 113 Hartwell Avenue, Lexington, Massachusetts. Quanterix will move from its current footprint into an adjacent space that King Street Properties’ design and development team will construct and deliver on a turn-key basis to accommodate Quanterix’ future needs.

Having originally moved its headquarters to the building from Cambridge in April of 2012, Quanterix will expand its footprint by more than 10,000 square feet. Steve Lynch, Tom Ragno and Mike DiMinico of King Street Properties handled the negotiations internally for the landlord, while Tucker Hansen and Joe Flaherty of Colliers International represented Quanterix in this September 2014 transaction.

King Street Properties acquired 113 Hartwell Avenue in November 2010 and completed extensive base building improvements converting this former electronics headquarters building into a new state-of-the-art life science facility.

### **About Quanterix Corporation**

Founded in 2007, Quanterix has developed an ultra-sensitive diagnostic platform capable of measuring individual proteins at concentrations 1000 times lower than the best immunoassays available today. In early 2014 Quanterix was selected as the winner of the GE and NFL Head Health Challenge from more than 400 entries across 27 countries by a panel of leading healthcare experts in brain research, imaging technologies and advocates for the advancement of brain research. This grant provides funding to help further advance development of tests to quickly diagnose traumatic brain injuries through their ultra-sensitive Simoa™ technology that measures molecular signatures (biomarkers) of brain injury in blood.

### **About King Street Properties**

King Street Properties is a private real estate investment management firm owned by Thomas Ragno and Stephen Lynch, two recognized leaders in the Greater Boston commercial real estate industry. The company is focused on serving the complex real estate needs of science-based companies and institutions. In a sense, who we are is defined by the companies with whom we have done business with. They include pharmaceutical and bio-tech firms engaged in drug discovery, makers of medical devices and diagnostic tools, as well as clean tech companies engaged in the creation of diverse products harnessing renewable materials and energy resources. We provide sophisticated work environments including chemistry, biology and customized laboratory spaces.
